COMPANY OVERVIEW

Electrical Engineering Enterprises (EEE) is an industry leader in safely delivering comprehensive Electrical solutions to complex customer issues. EEE's service offerings include site electrical construction and maintenance work, Transformer and Substation Installation, maintenance and testing services, site facility apparatus maintenance testing services, power line construction maintenance and transformer and breaker shop refurbishment services in the United States. EEE serves the Utility, OEM, Industrial, Aggregate and commercial customers in the US. EEE is one of three electrical services companies operating under the CapPro, Inc. umbrella, giving it a wealth of resources to offer clients in need of a wide range of services.

EEE HISTORY

Founded in 1999 by Wayne Ellis, the Company has grown into a critical infrastructure partner by specializing in high voltage distribution equipment maintenance and installation, transformer repair and maintenance, electric testing, switchgear and circuit breaker refurbishment, oil processing, site abatement and overhead and underground power line installations.

SAFETY CULTURE

EEE's number one priority is the safety of our staff and all people at the job site. Every job starts with a Job Hazard Analysis form. The job lead completes this form daily and briefs all workers on the hazards and work conditions specific to the duties of that day. JHA includes: job tasks, potential hazards, controls to mitigate hazards including PPE and permits required. In addition, our safety procedures include a daily inspection of all equipment to be used on job that day.

PARENT COMPANY INFORMATION

CapPro, Inc. is a holding company (Florida LLC) formed with the purpose of owning and operating complimentary electrical service companies. Critical infrastructure service companies offer sustainable business opportunities by providing mission critical electrical project and work order support. CapPro's growing work force of subject matter expertise is rapidly expanding the support and service to meet our Customer's demand. As systems become more complex and integrated with other technologies, CapPro is committed to continual improvements for all business functions to deliver an industry leading customer experience.

CapPro Companies are not rolled up and re-branded, they are integrated into the CapPro family. CapPro is dedicated to retaining key management, succession planning, and deploying a work force dedicated to customer satisfaction. We believe both of our Florida based platform companies were founded and operated by entrepreneurs with the same values.
