**FOR IMMEDIATE RELEASE**

## Electrical Engineering Enterprises Achieves NETA Certification Raising the Standard in Electrical Testing and Reliability

TAMPA, FLORIDA • 7/6/2026

Electrical Engineering Enterprises (EEE) is proud to announce that we are now a **NETA Certified Electrical Testing Company**. This certification demonstrates our commitment to providing our customers with the highest level of technical expertise, safety, and quality in electrical testing, commissioning, and maintenance services.

### What is NETA?

The InterNational Electrical Testing Association (NETA) establishes the industry standards for testing electrical power systems and equipment. NETA-certified companies undergo rigorous evaluations to verify their technical capabilities, quality processes, safety programs, and commitment to industry best practices.

### What This Means for Our Customers

As a NETA Certified Company, EEE provides:

- Testing performed in accordance with recognized industry standards and best practices.
- Highly trained technicians dedicated to power system safety and reliability.
- Consistent, documented testing procedures and quality assurance processes.
- Improved system reliability and reduced risk of unexpected outages.
- Confidence that critical electrical assets are being evaluated by an independently certified organization.

### Our Services Include:

- Acceptance and Commissioning Testing
- Preventive Maintenance Testing
- Arc Flash Studies and Power System Studies
- Transformer Testing and Diagnostics
- Circuit Breaker Testing and Maintenance
- Protective Relay Testing and Commissioning
- Infrared Thermography
- Substation Testing and Commissioning
- Emergency Troubleshooting and Reliability Services

At EEE, our mission has always been to help our customers improve the safety, reliability, and performance of their electrical systems. Achieving NETA certification is another step forward in delivering best-in-class service to the industrial, utility, municipal, and commercial markets we proudly serve.

Thank you for your continued trust and partnership.
