

FOR IMMEDIATE RELEASE

EEE's Holding Company, Cap Pro, LLC, Broadens its Portfolio with the Acquisition of Flo Power, LLC.

TAMPA, FLORIDA • 8/5/25

Cap Pro, LLC, a locally owned and operated holding company is announcing the acquisition of Flo Power, LLC from Mike Dansby. The new entity, which will formally be called Flo Power & Substation Services, Inc., will be operated in parallel with Electrical Engineering Enterprises, Inc, and is the second Florida founder-owned business added to the family.

Mike Dansby, who founded Flo Power LLC in 2017, has worked in the Transformer Maintenance Industry since 1984. Under the leadership of Mike, Flo Power LLC has been built on a foundation of trust, consistently earning customer loyalty by doing what is right.

"Working on Transformers is like Heart Surgery; you can't rush it." - Mike Dansby

The integration of Flo Power's proven expertise and trusted service in electrical systems with EEE's scalable platform and market reach, we are poised to deliver even greater value to our customers, partners, and communities.

The acquisition, which will elevate the overall workforce to over 120 employees, expands the geographical service footprint through the state of Florida and Nationally. The acquisition will be effective 8/5/2025.

Trusted History

EEE has more than 20 years of service to become the trusted critical electrical infrastructure partner in Florida.

Safety Culture

EEE's number one priority is the safety of our employees and all people at the job site.

Qualified & Certified

EEE is fully resourced with the certifications, equipment, expertise, factory training and licensing for primary contract responsibilities.
